### MESSAGE FROM THE HEAD TEACHER

Dear parents/carers,

It has been a great week! We really enjoyed World Book Day yesterday and the children really enjoyed the 'snuggle up and read' - they particularly enjoyed the hot chocolate! Don't forget that it is parents'/carers' evening next week and you need to book online for a ten minute slot to see your child's class teacher. I will be around school too, should you need to speak to me.

The attendance has been much better again this week so keep up the hard work everyone!

Have a fantastic weekend and I look forward to seeing you all on Monday.

Ms Booth

### Parents Evenings are

### Attendance advice for Parents

Being in school and having the best attendance possible underpins all the many benefits of school for your child, such as their learning, wellbeing and wider development. For some children, attending school every day will be harder than for others. This is why schools, and local councils in some cases, are committed to working together with families to solve problems and support your child's school attendance. The letter attached provides you with some valuable information.

## What Parents & Carers Need to Know about NGL

**13+**

**WHAT ARE THE RISKS?**

**ANONYMITY AND OVERSHARING**

Anonymous messaging apps like NGL allow users to post messages to other users without revealing their identity. This can be a good way to connect with others, but it can also be a bad one. If you're not careful, you can overshare personal information about yourself and your family. This can be dangerous, especially if you're sharing information about your location or your contact details.

**PROTECTION FOR BULLIES**

Having their identity hidden means bullies can't find out who they are or where they live. This can be a good way to protect yourself from bullies, but it can also be a bad one. If you're not careful, you can become a target for bullies who are looking for someone to bully.

**COSTLY SUBSCRIPTIONS**

NGL offers a subscription service for a weekly fee. This can be a good way to get more features, but it can also be a bad one. If you're not careful, you can end up paying for a subscription that you don't need or that you can't afford.

**ADVICE FOR PARENTS & CARERS**

**DEALING WITH NEGATIVITY**

Receiving another user's NGL will prevent them sending anonymous messages to your child in the short term – although a determined cyber-criminal could get around this by using a proxy server or a VPN. If your child consistently receives negative messages that affect their mental health, it's important to talk to your child about the app and to consider whether they really need to use the app at all.

**EXPLAIN ANONYMOUS APPS**

We understand that a conversation with your child about the risks of anonymous messaging may seem difficult to initiate. Remember, your child's best friend is you. If you're not sure how to talk to your child about this, there are many resources available online that can help you. Remember, your child's safety is your top priority and you should always be honest with them about the risks of using these apps.

## What Parents & Carers Need to Know about SPOTIFY

**18**

**WHAT ARE THE RISKS?**

**EXPLICIT LYRICS**

As per Spotify's terms and conditions, parents need to be aware that Spotify's explicit lyrics filter is not perfect. It can sometimes fail to filter out explicit lyrics, and it can sometimes filter out lyrics that are not explicit. This can be a good way to protect your child from explicit lyrics, but it can also be a bad one. If you're not careful, you can end up allowing your child to listen to explicit lyrics or to miss out on good music.

**GROOMING TACTICS**

Although Spotify doesn't have a grooming filter, it does have a parental advisory filter. This can be a good way to protect your child from grooming tactics, but it can also be a bad one. If you're not careful, you can end up allowing your child to listen to music that contains grooming tactics or to miss out on good music.

**OVERSHARING**

Spotify provides a perfect way to play music, but it can also be a bad one. If you're not careful, you can overshare personal information about yourself and your family. This can be dangerous, especially if you're sharing information about your location or your contact details.

**ADVICE FOR PARENTS & CARERS**

**SWAP TO SPOTIFY KIDS**

If your child is under 13, you should consider switching to Spotify Kids. This is a free app that is designed specifically for children and it has a parental advisory filter. It can be a good way to protect your child from explicit lyrics and grooming tactics, but it can also be a bad one. If you're not careful, you can end up allowing your child to listen to explicit lyrics or to miss out on good music.

**TALK ABOUT THE RISKS**

As with any platform, it's good practice to talk to your child about the risks of using Spotify. This can be a good way to protect your child from explicit lyrics and grooming tactics, but it can also be a bad one. If you're not careful, you can end up allowing your child to listen to explicit lyrics or to miss out on good music.

**KEEP AN EYE OUT**

If you're concerned that your child is spending too much time on Spotify, it's important to talk to them about it. This can be a good way to protect your child from explicit lyrics and grooming tactics, but it can also be a bad one. If you're not careful, you can end up allowing your child to listen to explicit lyrics or to miss out on good music.
